**Ahmed Riahi-Belkaoui : Critical Financial Accounting Problems: Issues and Solutions** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Critical Financial Accounting Problems: Issues and Solutions:

From the complexity of today's business world and its daily transactions has come a proliferation of new accounting

standards. The Financial Accounting Standards Board has weighed in with its own pronouncements on the issues, but are they truly comprehensible and applicable? Riahi-Belkaoui explores these questions clearly, with numerous illustrations of the accounting techniques embedded in them, and offers interpretations designed to help accounting professionals deal with these problems in their work. Scholars, researchers, and students in the academic community will also find his analyses helpful and compelling.

About the Author AHMED RIAHI-BELKAOUI is CBA Distinguished Professor of Accounting in the College of Business Administration, University of Illinois at Chicago. Author of more than 30 Quorum books and coauthor of several more, he is also a prolific author of articles published in the major scholarly and professional journals of his field, and has served on numerous editorial boards that oversee them.
