**Ralph Nader : Cutting Corporate Welfare (Open Media Series)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Cutting Corporate Welfare (Open Media Series):

Actually, this book may have been the creation of the concept of "Corporate Welfare", a notion we now see appropriately used to analyze events. 0 of 0 people found the following review helpful. Excellent Read By Keith Lock. Excellent read. This is the handbook for all the BS you always suspected. 0 of 0 people found the

following review helpful. Excellent description of Corporate Welfare in AmericaBy jemThe greed of Corporate America is destroying this country, and infecting the world. Ralph Nader has well described how middle America is 'paying' for this Corporate rape of our citizens.

In this groundbreaking pamphlet, based on testimony he delivered before Congress, Ralph Nader describes how corporations are picking our pockets, and what we can do to stop them. While the United States continues to experience unprecedented cuts in social service programs and millions of Americans go without health insurance, massive corporations continue to reap huge sums of taxpayer money through "corporate welfare"—corporate subsidies, bailouts, giveaways, and tax escapes. Cutting Corporate Welfare details numerous appalling examples of corporate welfare, including: the giveaway of the public airwaves, which by definition belong to the people, to private radio and television stations (including the latest \$70 billion gift of the digital spectrum); taxpayer subsidies for giant defense corporation mergers and commercial weapons exports to governments overseas; and the practice of making patients pay twice for drugs—first, as taxpayers subsidize the drugs' development, and again, as patients, after the federal government gives monopolistic control over the chemicals' manufacture to a price-gouging drug company. Cutting Corporate Welfare sounds a wake-up call for those concerned about how we are being pick-pocketed by big business, and what we can do to stop it.
