Adrián Armas, Eduardo Levy Yeyati, Alain Ize : Financial Dollarization: The Policy Agenda (Procyclicality of Financial Systems in Asia) before purchasing it in order to gauge whether or not it would be worth my time, and all praised *Financial Dollarization: The Policy Agenda (Procyclicality of Financial Systems in Asia)*:

Financial (unofficial) dollarization is widely seen as a critical source of financial fragility in both developing and emerging economies. This volume provides a rigorous and balanced perspective on the causes and implications of dollarization, and the basic policies and options to deal with it: the adaptation of the monetary and prudential frameworks, the development of local-currency substitutes, and the scope for limiting dollarization through administrative restrictions.
