Finance is Excel! This book takes you straight into the fascinating world of Excel, the powerful tool for number crunching. In a clear cut language it amalgamates financial theory with Excel providing you with the skills you need to build financial models for private or professional use. Anbsp;comprehensivenbsp;knowledge of modeling in Excel is becoming increasinglynbsp;important in a competitive labour market. The chapters in part one start with the most basic Excel topics such as cell addresses, workbooks, basic formulas, etc. These chapters get more advanced through part one, and takes you in the end to topics such as array formulas, data tables, pivot tables, etc. nbsp; The other parts of the book discusses a variety of subjects such as net present value, internal rate of return, risk, portfolio theory, CAPM, VaR, project valuation, asset valuation, firm valuation, loan, leasing, stocks, bonds, options, simulation, sensitivity analysis, etc.

About the AuthorMorten Helbaelig;k is Associate Professor at North-Troslash;ndelag University College, Norway.

Ragnar Loslash;vaas is Research and Development Engineer at Nortroll AS, Norway Jon Olav Mjoslash;lhus is Senior Lecturer at Buskerud University College, Norway
