Jon Friedman : Forget About Today: Bob Dylan's Genius for (Re)invention, Shunning the Naysayers, and Creating a Personal Revolution before purchasing it in order to gauge whether or not it would be worth my time, and all praised Forget About Today: Bob Dylan's Genius for (Re)invention, Shunning the Naysayers, and Creating a Personal Revolution:

10 of 11 people found the following review helpful. Felt the author rambled about either rhetorical nonsense or basic common knowledge on Bob Dylan. Not one thing new or revealing. By Howar Felt the author rambled on about basic common Bob Dylan knowledge and/or basic common sense approaches to life that Dylan incorporated into his life.

Not one revealing item about Dylan that I did not already know and I'm not an avid Bob Dylan follower, just a music fan who thought this book might be interesting, which it was not. 17 of 19 people found the following review helpful. Forget About Tomorrow By Customer As a Dylan fan I was very much looking forward to this book. I am familiar with the author, as I have enjoyed his commentary on Market Watch, etc. Unfortunately the book was a major disappointment. Rather than offering any new perspective on Dylan's life and career, it was the most redundant, repetitive read in memory. Each and every chapter dealt with how Dylan has continually re-invented himself and has never been satisfied with the status-quo. Any casual fan already knows this. It actually felt like I was reading the same chapter over and over. This book requires no more than perhaps one hour to read cover to cover. Don't waste your 60 minutes! 13 of 17 people found the following review helpful. Ok, if you don't know much about Dylan By Charles H Mansfield I wish I didn't impulse buy this book. If you don't know much about Dylan but are somewhat interested and like a self help style, this may be a good start; but if you've read Chronicles, seen No Direction Home or pretty much any well done thing about him, there would be little reason to read this book. The inferences he makes are very simple and repetitive and don't cover any new ground or offer any insights a reasonably intelligent person would not get from just paying attention to Dylan himself. It was ok but I was expecting more.

A revealing new perspective on Bob Dylan's enduring legacy - from one of the foremost experts on the Nobel Peace prize-winning artist. Forget About Today shows a side of Bob Dylan that most people - from fans to skeptics - have never seen. Rather than another gossipy account of his romances, finances, or family, journalist Jon Friedman offers a new perspective on Dylan's revolutionary and enduring legacy through an intimate look at the mystery behind Dylan's success. Bob Dylan has been a pop culture mainstay for more than 50 years as a poet, songwriter, and performer. Yet from his decision to go electric while everyone clung to his folk roots to his shocking appearance on a Victoria's Secret commercial, critics have predicted Dylan's demise every step of the way. Each time, he's proven legions of doubters wrong, never letting anyone keep him from accomplishing goals - on his terms. Featuring exclusive insights from Dylan's most trusted confidants, Forget About Today provides a unique look at Dylan's life and career while it distills valuable advice from one of the music world's most revolutionary artists and entrepreneurs. From the Trade Paperback edition.
