Stephen A. Zeff : Forging Accounting Principles in Five Countries: A History and an Analysis of Trends (Routledge Revivals) before purchasing it in order to gage whether or not it would be worth my time, and all praised Forging Accounting Principles in Five Countries: A History and an Analysis of Trends (Routledge Revivals):

This title, first published in 1972, examines five countries that have experience with programs designed to improve the quality of financial reporting. Zeff devotes separate chapters to the historical evolution of the program, and then goes on to compare and analyse the various trends. This book presents an important piece of research to those concerned with the development of accounting principles.
