What challenges does the future hold? In an increasingly interconnected - and increasingly uncertain - world, companies, institutions and governments across the world recognise the vital need to pose this question in order to protect the interests of humanity. Founded in 2009, the Future Agenda explores key issues facing society over the next

decade through 120 workshops held in 45 locations around the world, making it the largest open forum of its kind. The Future Agenda: Six Challenges for the Next Decade contains findings from the second Future Agenda initiative, featuring experts from a vast spectrum of industries. With essays falling under the themes of People, Place, Power, Belief, Behaviour and Business, this book is essential reading for all concerned by our collective well-being.
