Robert Cherry : Moving Working Families Forward: Third Way Policies That Can Work before purchasing it in order to gage whether or not it would be worth my time, and all praised Moving Working Families Forward: Third Way Policies That Can Work:

Even as our political system remains deeply divided between right and left, there is a clear yearning for a more

moderate third way that navigates an intermediate position to address the most pressing issues facing the United States today. *Moving Working Families Forward* points to a Third Way between liberals and conservatives, combining a commitment to government expenditures that enhance the incomes of working families while recognizing that concerns for program effectiveness, individual responsibility, and underutilization of market incentives are justified. While conservatives often propose economic incentives to promote desirable behavior, and liberals are often aghast at these policies, Third Way advocates take a more flexible position. Robert Cherry and Robert Lerman provide the context to understand the distinctive qualities of Third Way policies, focusing on seven areas that substantially affect working families: immigration, race and gender earnings disparities, education, housing, strengthening partnerships, and federal taxes. Balancing quantitative empirical studies with voices of working class people who are affected by the policies being discussed, they argue that, in each of these areas, Third Way policies are superior compared to those proposed by the right and the left, offering an engaging and important perspective on how public policies should be changed. A timely approach, *Moving Working Families Forward* makes policy recommendations that are both practical and transformative.

“Offers highly sophisticated proposals for helping working families advance in the wake of welfare reform. Cherry and Lerman are very expert, and they write very well.” -Lawrence M. Mead, Co-editor of *Welfare Reform and Political Theory*
About the Author Robert Cherry is Brueklundian Professor in the Department of Economics at Brooklyn College of the City University of New York and author of many books, including *Who Gets the Good Jobs: Combating Race and Gender Disparities* and *Welfare Transformed: Universalizing Family Policies that Work*.
